NET, IAS, State-SET (KSET, WBSET, MPSET, etc.), GATE, CUET, Olympiads etc.: Geography MCQs (Practice_Test 18 of 118)

Glide to success with Doorsteptutor material for competitive exams : [get questions, notes, tests, video lectures and more \[https://www.doorsteptutor.com/\]](https://www.doorsteptutor.com/) - for all subjects of your exam.

1.
 - **Assertion (A)** : In winters, the northern half of India is warmer than areas at similar latitudes outside the country by 3C to 8C.
 - **Reason (R)** : The presence of the Himalayas with their east and west extent is the cause.
 - a. Both A and R are true and R is the correct explanation of A
 - b. Both A and R are true but R is NOT the correct explanation of A
 - c. A is true but R is false
 - d. A is false but R is true
2.
 - **Assertion (A)** : Laterite, the typical soil of tropical region, is rich in oxides of iron and aluminium compounds.
 - **Reason (R)** : Heavy rainfall promotes leaching of lime and silica content of the soil.
 - a. Both A and R are true and R is the correct explanation of A
 - b. Both A and R are true but R is NOT the correct explanation of A
 - c. A is true but R is false
 - d. A is false but R is true
 - **Assertion (A)** : Despite deforestation, in the existing forest areas of the Chhattisgarh Region, Sal tree is predominant species.
 - **Reason (R)** : Sal tree is more aggressive, resistant to burning and has better longevity.
 - a. Both A and R are true and R is the correct explanation of A
 - b. Both A and R are true but R is NOT the correct explanation of A
 - c. A is true but R is false
 - d. A is false but R is true
3.
 - **Assertion (A)** : Sugar industry has a high concentration in Uttar Pradesh State of India.
 - **Reason (R)** : The sugarcane produced in Uttar Pradesh is of low quality
 - a. Both A and R are true and R is the correct explanation of A

- b.* Both A and R are true but R is NOT the correct explanation of A
 - c.* A is true but R is false
 - d.* A is false but R is true
- **Assertion (A)** : The concept of Lebensraum was misused by Karl Hansofer.
 - **Reason (R)** : It was misused for the furtherance of German expansion under Nazi.
 - a.* Both A and R are true and R is the correct explanation of A
 - b.* Both A and R are true but R is NOT the correct explanation of A
 - c.* A is true but R is false
 - d.* A is false but R is true
- 4.
 - **Assertion (A)** : Despite marked development and large volume of output, Indian geography is yet to make a significant impact on the international scene.
 - **Reason (R)** : Indian geographers accept the themes and teachings of Western geographers without criticism.
 - a.* Both A and R are true and R is the correct explanation of A
 - b.* Both A and R are true but R is NOT the correct explanation of A
 - c.* A is true but R is false
 - d.* A is false but R is true
 - **Assertion (A)** : In comparative scales two plain scales of different units with the same RE are made one over the other.
 - **Reason (R)** : The length of both the scales may not necessarily be the same.
 - a.* Both A and R are true and R is the correct explanation of A
 - b.* Both A and R are true but R is NOT the correct explanation of A
 - c.* A is true but R is false
 - d.* A is false but R is true
- 5. Consider the following statements with respect to Quantitative Revolution
 - a.* It focused on areal differentiation
 - b.* It reduced geography to space geometry
 - c.* It followed the methodology of spatial science
 - d.* It helped in the development of methods of spatial structure
 - Which of these are correct?
 - a.* 1,2 and 3
 - b.* 2,3 and 4
 - c.* 1,3 and 4
 - d.* 1,2 and 4

6. Consider the following statements associated with representation of scale by representative fraction (RF)
- In RE the units of the numerator and the denominator are taken as the same
 - The units are never mentioned when the scale is expressed in the form of RF
 - The denominator is always 100
 - The numerator should always be 1
- Which of these are correct?
- 1,2 and 4
 - 1 and 4
 - 2 and 3
 - 3 and 4
7. Consider the following statements
- Spatial analysis is closely associated with positivism
 - The behaviouralists concentrated on the issues of inequality
 - Humanistic geography attempts at understanding meanings and value of life events
- Which of these are correct?
- 1 and 2
 - 1 and 3
 - 2 and 3
 - 1,2 and 3
8. In which of the following projections, scale is correct along 45 latitude?
- Equal area cylindrical projection
 - Gall's projection
 - Mercator's projection
 - Mollweide's projection
9. Match List I with List II and select the correct answer:

List-I (Projections)	List-II (Their Suitability)
<ol style="list-style-type: none"> Bonn's Cylindrical Equal Area Conical with one standard parallel Conical with two standard parallel 	<ol style="list-style-type: none"> Trans-Siberian Railway USA and Canada boundary Continent of Europe Rubber and spices production in the world

11. Consider the following statements Colour-composite imagery based on satellite data is mostly seen in un-natural colour scheme because

- a. blue wavelengths of solar radiation are strongly scattered
- b. red wavelengths of solar radiation are marl absorbed
- c. it contains an invisible wavelength data which must also be assigned a specific colour filter
- o Which of these is/are correct?
 - a. only 1
 - b. 1 and 2
 - c. only 3
 - d. 1,2 and 3

12. Consider the following statements about Geographical Information Systems (GIS)

- a. It handles attribute data on a technical base
- b. It can draw maps and other graphics with great ease and speed
- c. Is a slow and tedious task involving creation of GIS data base
- d. I work only in combination with remote sensing data.

- e.* It can analyses data for specified task and thus help decision making
- Which of these are correct?
 - a.* 1,2 and 4
 - b.* 2,3 and 4
 - c.* 3,4 and 5
 - d.* 1,2, 3 and 5
