Unequal Distribution Samir Amin

Complete notes and preparation module at

Sociology

Introduction

- Egyptian-French Economist
- Called himself a 'creative Marxist' .
- World System Analysis (core-periphery)
- Dependency theory (Marxist)
 - He said, "In my view this is for political rather than empirical reasons."
 - Dependency theory fits with uneven development
- Radical theory - International Political Economy

Works

- An Essay on the Social Formations of Peripheral Capitalism
- *Accumulation on a World Scale*
- Unequal exchange
- Euro centrism

Unequal Exchange

- Arghiri Emmanuel first developed the theory of unequal exchange
- Amin criticized Emmanuel's work and gave his own literature
- He integrated imperialism and Marx's labour theory of value

Concept

- Mechanisms through which value flows from the periphery to the core
- Maintaining an international division of labour

- Uneven distribution of wealth geographically.
- Against neo-classical economics
- Capitalism - a global system dependent on the polarization between the centre and periphery.
- Monopoly capital's extension to the periphery
- Earn super-profits
- Auto centric accumulation
 - In advanced capitalist countries
 - Promoted expanded reproduction of capital

Structure of Exploitation of Labour

- Uneven development and exploitative structure Leads to
 - unequal exchange
 - Continued polarization
 - Increased inequality
- These theories explain the factor price non-equalization in the world economy
 - Factor price is remuneration to labour or other primary non-produced factors.
- The cheap labour attracts foreign investment.
- Amin's analysis of unequal exchange - a unit of labour power is valued less in the periphery than in the core

Conclusion

- Underdevelopment is NOT a lack of development
- But the Reverse side of development
- Exploitation of countries by rich countries for labour and resources
- Global economy favours continued enrichment of rich countries
- Poor countries have to pay the expense
- Role of social conflicts ignored in development
- As Economics focuses on management of capitalist expansion and theories
- Capitalist expansion starts from one region but expands globally

Phases

- Mercantilist stage

- 1500 - 1800
- International exchange – looting – Colonialism
- Others fall behind
- Competitive stage
 - 1800 - 1880
 - Capitalism expands – competition
 - It is already in an advantageous position
- Current stage
 - 1880 to today
 - Monopoly capitalism
 - Helps profits from declining
 - Through unequal exchange
