

The surprisingly *abundant* life of the Indian Ocean is confined to the upper layers; the deeper and especially the **bottom waters** are devoid of oxygen and are often permeated with hydrogen sulphide.

Mumbai, which until 1995 was called Bombay, is on the west coast of **India**. It (has/have/had) a population of 14 million inhabitants. It is the trading and entertainment capital (at/to/of) India. Some major industries in Mumbai today (is/are/were) hi-tech, diamond cutting and movie making.

The **movie-making industry** is especially important because it supplies jobs for thousands of people every day. The name given to this industry in India is "**Bollywood**." It is similar to the American name "**Hollywood**," which is a place.
