## NCERT Class 9 Physics Formative Assessment Motion CBSE Board Sample Problems

Get unlimited access to the best preparation resource for CBSE/Class-9 : get questions, notes, tests, video lectures and more [https://www.doorsteptutor.com/Exams/CBSE/Class-9/]- for all subjects of CBSE/Class-9.

## Short Answer Based questions

1) What is unit of acceleration?
2) What is zero uniform velocity motion?
3) A body moving in a circle with constant speed. Is it acceleration?
4) A body goes from point A to B and then return then from B to $A$. what is the total displacement?
5) Acceleration is a vector quantity True or false?
6) What is the path of a velocity - time graph of a body moving with uniform acceleration
7) What all ways the velocity of the body can be changed?
8) What is average speed?

## Match the column

| Column A | Column B |
| :--- | :--- |
| The Slope of the speed-time graph is called | Average Velocity |
| The arithmetic mean of initial and final velocity | Distance |
| What quantity is obtained by the area under speed time graph | Acceleration |
| The slope of the distance time graph | Speed |
|  |  |

## Table type question

A car moves in a straight line from rest at t0. It accelerates with $2 \mathrm{~m} / \mathrm{s} 2$
Solve the following table

| Time | 2 sec | 10 mm | 25 m | $10 \mathrm{~m} / \mathrm{s}$ |
| :--- | :--- | :--- | :--- | :--- |
| Displacement | $?$ | $?$ | $?$ | $?$ |
| Velocity | $?$ | $?$ | $?$ | $?$ |
| Solve the Following Table |  |  |  |  |

## Fill in the blanks

1) A car starts at rest and travel a distance 20 m in 1 sec . The car average speed is $\qquad$
2) Motion of earth around sun is an example of $\qquad$ Motion
3) Tractor moving with $18 \mathrm{~km} / \mathrm{h}$ is then car moving with $1500 \mathrm{~m} / \mathrm{mm}$
4) The motion of a free falling body is $\qquad$ an example of $\qquad$ motion
5) The curved speed time graph represent $\qquad$ accelerated motion
6) Distance is a quantity while displacement is a $\qquad$ quantity

## Solution

## Fill in the blanks Solution

1) $20 \mathrm{~m} / \mathrm{s}$
2) Uniform circular motion
3) Lesser
4) Uniform acceleration motion
5) Not uniform
6) Scalar, vector

## Crossword Puzzle

Across
2. Physical quantity obtained by dividing displacement with time taken
3. A quantity having both magnitude and direction
4. This remains constant in uniform circular motion
6. It is the slope of speed -time graph
8. This measure the distance travelled by the car

Down

1. This is the other name for negative acceleration
2. The speed is said to be a
3. This is the acceleration of the body with uniform velocity
4. This measure the speed of the car

Solution
Crossword solution
Across: Velocity, Vector, speed, acceleration, Odometer
Down: Retardation, Scalar, Zero, Speedometer
